Re: Case involving Cody Castagna and Co-Defendants

After speaking with the Spokane County Prosecuting Attorney's Office and discussing my further participation of the prosecution of the defendants, I am requesting that I not be requested to testify.

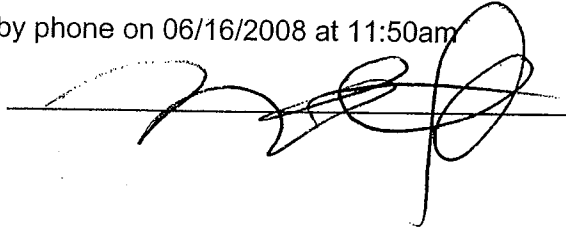

My wife, daughters, and son-in-law have paid a very high price for my actions and also the actions of the defendants. My family and I have found ourselves closer as a result and are settled into a new chapter in our lives and are moving past this incident. I am sure you can understand that this has been a very traumatic event for all of us.

We, as a family, have weighed the costs vs. benefits of testifying and have decided that going through the criminal court process would be more detrimental than good.

Sincerely,
Richard L. Curtis
